¹Solutions/technologies/products already developed/available in the market, adjusted to the enterprises' own need and applied in its activity. These types of projects can include an adjustment of material, process etc. according to applicant/enterprise's needs. Sectors: green industry innovation, blue growth, welfare technology, including SGS for women

²Commercialisation is understood as first introduction into the market of a new or significantly improved product/service/process. Sectors: green industry innovation, blue growth, welfare technology, including SGS for women

³Projects aimed at developing new or significantly improved technology/process/solution, mainly through R&D activities such as validation or demonstration of technologies in relevant (industrial) environment, prototypes demonstrated in operational environment, system completed and qualified (Technology Readiness Level 5-8). Sectors: green industry innovation, blue growth, welfare technology, including SGS for women

⁴Measuring results in enterprises supported by the Programme. Definition of "turnover": Enterprises net revenue for a fiscal year (after deduction of VAT, trade reductions and other indirect taxes).
